

G³ ZINC

OUR TESTOSTERONE BOOSTER: ZINC PROMOTES A BALANCED METABOLISM

Zinc is a trace element which is only present in the body in very small amounts. As an integral component of many enzymes, it nevertheless plays a crucial role in numerous metabolic processes. Yet although zinc is an essential trace element, it can only be stored for a short time and it can't be formed by your body, which is why you need to ingest it continuously via your food.

Zinc also influences your protein metabolism and cell division. It's important for a healthy skin and hair as well as for your body's own regeneration. At the same time, zinc is necessary for hormone production, for example it helps boost testosterone.

- **STRENGTHENS YOUR IMMUNE SYSTEM**
- **BOOSTS TESTOSTERONE PRODUCTION**
- **IMPROVES CEREBRAL FUNCTION**

180 pressed pills / 127 g

RECOMMENDED USE

Adults are recommended to take 1 capsule daily before a meal with 1-2 glasses of water (300-400ml).

INGREDIENTS
